Summary

Final-year IT student (SPPU, GPA 9.19/10) specializing in full-stack development with Java/Spring Boot and the MERN stack. Built production-style RESTful APIs, microservices, and web applications, including a genetic-algorithm-based scheduling system. Seeking a full-stack/SDE role to apply strong system design and problem-solving skills.

Education

PDEA College of Engineering, Pune (SPPU)

B.E. in Information Technology

2023 – 2026

- GPA: 9.19 / 10

Technical Skills

Languages: Java, JavaScript, SQL, HTML5, CSS3

Frameworks & Libraries: Spring Boot, Spring MVC, Hibernate, React.js, Node.js, Express.js

Databases: MySQL, PostgreSQL, MongoDB

Tools & Platforms: Git, GitHub, Postman, Maven, Vercel, Eclipse, VS Code

Core Concepts: RESTful APIs, JWT Authentication, Microservices Architecture, CRUD Operations, Agile Development

Projects

Academic Timetable Generator

GitHub: Link

Java, Spring Boot, React, PostgreSQL

- Designed a genetic-algorithm-based scheduling engine in Spring Boot that auto-generates conflict-free timetables, replacing error-prone manual scheduling
- Built role-based access control (Faculty/Student) using JWT-secured RESTful APIs, with PostgreSQL for persistent, structured data storage

Expense Tracker

GitHub: Link

MongoDB, Express.js, React.js, Node.js

- Built a full-stack MERN application with JWT authentication, supporting real-time balance calculation across income/expense records
- Integrated Chart.js to visualize monthly spending trends, giving users at-a-glance insight into category-wise financial patterns

Leave Management System

GitHub: Link

Java, Spring Boot, PostgreSQL, React

- Architected a full-stack leave management platform with role-based access (Employee/Admin), scaling to 100+ users with an admin dashboard for request review
- Developed RESTful APIs in Spring Boot handling end-to-end leave processing with real-time status updates and PostgreSQL persistence

Internship & Experience

IBM SkillsBuild

Frontend Web Development Intern

Jun 25, 2024 – Aug 5, 2024

- Built responsive, cross-browser web pages and reusable UI components using HTML, CSS, and JavaScript as part of a collaborative team
- Followed Agile/sprint-based practices, participating in code reviews and iterative feature refinement

CodeLite Hackathon

Volunteer

Aug 2024 – Oct 2024

- Coordinated logistics for an AI and Web3-focused hackathon, managing team formation, scheduling, and on-ground event flow
- Assisted participants with technical troubleshooting during build sessions

Certifications

Full Stack Java Development

Symbiosis Institute (in collaboration with Capgemini)

Feb 2025 – May 2025

IBM SkillsBuild Internship Certificate

Frontend Web Development

Jun 25, 2024 – Aug 5, 2024
